About Me

Results-oriented and highly skilled Mechanical Engineer with a strong background in designing and implementing mechanical systems. Proven ability to analyze complex engineering problems, develop innovative solutions, and optimize designs for improved efficiency. Excellent communication skills and a collaborative approach to work, with a track record of successfully coordinating interdisciplinary teams to achieve project goals.

Experience

Maruti Suzuki | June 2022

Trainee

- I was there for about 15 days.
- Used to know about each part of car interior, design etc.

Dayalbagh Educational Institute | May-June 2023

Research Intern

- Working under Prof. Ankit Sahai (Department of Mechanical Engineering)
- Working on a technique combining 3D scanning and printing technology to make customizable prosthetic liners which can be fitted to each patient's residual limb.

Education

BACHELOR OF TECHNOLOGY, Mechanical Engineering

Dayalbagh Educational Institute(2021-Present)

cgpa - 8.27

Intermediate, Science

Radhasoami Educational Institute(2019-2021)

cgpa - 9.46

High School

Radhasoami Educational Institute(2017-2019)

cgpa - 9.28

Languages

Hindi

English

Expertise

- C programming
- Web Development
- leadership
- Dancing & Singing
- Guitar

Projects

- Android Controlled Car
(Voice and Remote)
- GYM Website
- Food Delivery Website
